

Features	Benefits
Traceable and calibrated to international standards	<ul style="list-style-type: none">• Provides clear evidence that the detector always has the same detection coverage thereby ensuring reliability• Comes with individual calibration sheet, calibrated to international standards
Tests full dynamic range as well as delay function	<ul style="list-style-type: none">• Tests all GASSONIC Ultrasonic Gas Leak Detectors (UGLD) which eases maintenance
Onsite calibration of GASSONIC UGLD	<ul style="list-style-type: none">• No need to open up detector or remove parts in the field
Approved for use in hazardous areas	<ul style="list-style-type: none">• No need for special work permit prior to use in EX areas
Robust design made for harsh plant environment	<ul style="list-style-type: none">• Can be easily operated through thick gloves in all kind of weather conditions
